HELP ME!! ® Think Green
Bexar County Honors HMC!

On March 10, 2009 - Nancy Victor, President of HELP ME!! Computers, LLC was presented with the Environmental Advocate Award "Women Taking the Lead to Save our Planet." This honor was given in recognition of Bexar County Women's History Month at the Bexar County Commissioners Court.

One of the most significant things that we can do to make a positive impact and set a good example is to avoid adding to the ever-growing problem of hazardous electronics waste in our landfills.

Is Your Company Protected?
How a Service Plan can Save Your IT Budget and Beyond.

Network Downtime = lost sales + lost employee productivity and leaves customers frustrated...can your company afford it?

We can HELP! HMC offers two types of service plans for your unique technology needs.

Our Preventative Maintenance plan provides your company with routine maintenance to help you cut down on emergencies.

For company's requiring more support, we offer a comprehensive plan that includes preventative maintenance and goes beyond to cover hardware repairs/replacement, network emergencies and much

Security Suites) – approx. \$0-\$200 per computer

Hardware (i.e., router, fingerprint reader, ID card scanner) – approx. \$25-200 per computer

more. **Or, customize this plan further to include all new hardware every 3-5 years...which really makes budgeting a breeze!**

For more information about how service plans can help your business please contact us at 210.822.8817 or to see how we could help you in other ways visit our website at helpmecomputers.com.

This Month on Great Day SA -- System Security

We discuss how computer security keeps unauthorized users from accessing your data (i.e., accounting system or checking account information, client lists, personnel records, credit card information and your email accounts) and how you can protect yourself with the most cost-effective solutions.

Who needs to be concerned about security? Everyone – internet and non-internet users (because while you may not ever use the internet, someone could physically steal your computer and access your private information).

HELP ME!!® Computers' Efforts Recently Highlighted in SA Business Article

The recent article by Ronda Templeton in the San Antonio Express News highlighted HELP ME!!® Computers' specialization in emergency services and how the economy is effecting computer repair choices.

"...when the economy is booming and a computer gets a messy virus or crashes, consumers say, "It's too much trouble to have it fixed and computers have gotten cheaper, so I'll just buy a new one." Today, many are opting for less-expensive repairs. But what if your computer can't be repaired or you decide you'd rather have a new machine? Victor encourages everyone to

donate or recycle." [Click to the article](#)
